Teachers Discovering Computers

Integrating Technology and
Digital Media in the Classroom
6th Edition

Chapter 7 Evaluating Educational Technology and Integration Strategies

Remember to Read and Outline the Chapter AND the
Special Feature Article and Include Page Numbers

Chapter Objectives (slide 1 of 2)

- **Identify sources of information** for evaluating educational technology and digital media
- **Outline the considerations** and tools used to evaluate software applications
- **Describe and explain** the key criteria used to evaluate Web resources
- **Describe the tools** for evaluating the effectiveness of technology
- **Compare and analyze** the methods used to evaluate student projects

2

Chapter 7: Evaluating Educational Technology and Integration Strategies

Chapter Objectives (slide 2 of 2)

- **Identify** different technology integration strategies by classroom layout and design
- **Define and describe** the value of a curriculum page
- **Describe** ways to integrate technology into specific curriculum subject areas
- **Describe** authentic assessment tools for student projects
- **Identify and compare** possible sources of funding for classroom technology

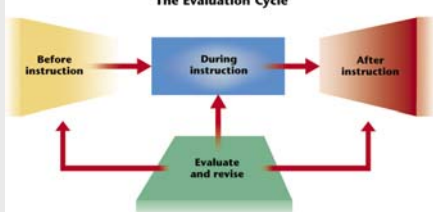

3

Chapter 7: Evaluating Educational Technology and Integration Strategies

Evaluating Educational Technology

- Determining if the technology is appropriate and enhances the teaching and learning process
- Evaluate before, during, and after instruction

The Evaluation Cycle

```

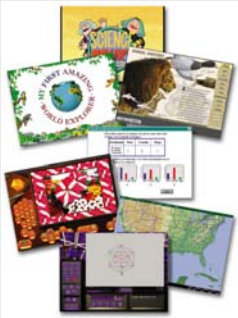

graph LR
    A[Before instruction] --> B[During instruction]
    B --> C[After instruction]
    C --> D[Evaluate and revise]
    D --> A
    D --> B
    
```

4

Chapter 7: Evaluating Educational Technology and Integration Strategies

Evaluating Educational Technology

- Numerous resources and technologies to choose from
- School districts and state Departments of Education have
 - **Lists of recommended software**

5

Chapter 7: Evaluating Educational Technology and Integration Strategies

Evaluating Educational Technology

- **Professional educational organizations**
 - Local, state, regional, national, and international educational organizations
 - Web sites for organizations

6

Chapter 7: Evaluating Educational Technology and Integration Strategies

Evaluating Educational Technology

- **Catalogs**
 - Provide information about how to use products
 - Free by request
- **Colleague Recommendations**
 - Discuss issues with other educators
 - Unbiased, first-hand experience
- **Published evaluations**
 - See company's Web site
 - Educational journals

Evaluating Educational Technology

- **Conferences**
 - National and state organizations
 - Presentations
 - Exhibitors: Meet representative from hardware and software companies

Evaluating Educational Technology

- **The Web**
 - Mailing lists
 - EDTECH
 - Forums
 - Newsgroups
 - Discussion groups
 - Listservs
 - Wikis
 - Blogs
 - Webinars

Evaluating Educational Technology

Evaluating Software Applications

- Free trial versions
- Software evaluation rubrics
 - Detailed assessment tool

-See rubric next slide

Software Evaluation Rubric

Application Title: _____ **Subject Area:** _____

Version: _____ **Product or Publisher:** _____

Date Published: _____

Learning Objective (Standard): _____

Learning Objective (Standard): _____

Technology (Software): _____

Requester: _____

Software Evaluation Rubric

(This rubric is for use with software that is available for free or at a low cost.)

Key Issues:

Can the user use it as the teacher? 1 2 3 4 5 NA

Can the user use it as a student? 1 2 3 4 5 NA

Can the user use it as an administrator, educator? 1 2 3 4 5 NA

Can the user use it as a safety of applications? 1 2 3 4 5 NA

CD-ROM

Hardware/ System Requirements:

Type of Disk Required: _____ **CD:** _____ **Network:** _____

Min. Hard Drive Required: _____ **Memory Required:** _____

Programs/Clashes (Check what apply):

☐ Administrative ☐ Educational Games

☐ Antivirus ☐ Spreadsheet

☐ Other: _____ ☐ Database

☐ Other: _____ ☐ Database

Assessment:

Software has built-in assessment and reporting tools. 1 2 3 4 5 NA

Assessment methods are appropriate and reliable to measure learning. 1 2 3 4 5 NA

Software includes and records student progress. 1 2 3 4 5 NA

Software includes and records student progress by individual program reports. 1 2 3 4 5 NA

Use this Software Rubric to rate the software

(If multiple responses, 0 Response = 1 Response, 1 Response = 4, 4 Not applicable)

1. The content is accurate and valid. 1 2 3 4 5 NA

2. The content is free of errors. 1 2 3 4 5 NA

3. The content is free of errors. 1 2 3 4 5 NA

4. The content is free of errors. 1 2 3 4 5 NA

5. The content is free of errors. 1 2 3 4 5 NA

6. The content is free of errors. 1 2 3 4 5 NA

7. The content is free of errors. 1 2 3 4 5 NA

8. The content is free of errors. 1 2 3 4 5 NA

9. The content is free of errors. 1 2 3 4 5 NA

10. The content is free of errors. 1 2 3 4 5 NA

Instructional and Support:

1. The user can use the program. 1 2 3 4 5 NA

2. The software has an excellent support through. 1 2 3 4 5 NA

3. Online technical support is available. 1 2 3 4 5 NA

4. Help and manuals are clear and easy to use. 1 2 3 4 5 NA

Evaluating Educational Technology

Evaluating Software Applications

- **Content**
 - Is the software valid?
 - Relate content to school's and state's specific curriculum standards and related benchmarks

Evaluating Educational Technology

Evaluating Software Applications

- **Documentation and technical support**

- **Documentation-** Printed or online information
- **Technical support-** Telephone or Web support

Evaluating Educational Technology

Evaluating Software Applications

- **Ability levels and assessment**

- Can software be used with various ability and academic levels?
- Can software adjust the academic level and students move through the skills

Evaluating Educational Technology

Evaluating Software Applications

- **Technical quality and ease of use**

- **Technical quality**
 - How well the software presents itself and how well it works
- **Ease of use**
 - User friendliness
- **Student opinion is important in these criteria**

Evaluating Educational Technology

Evaluating Web Resources

- **Authority**

- Is the author clearly identified?
- Examine the credentials of the author or organization of the Web site
- Has the author or organization listed experience, position, education, or other credentials?

Evaluating Educational Technology

Evaluating Web Resources

- **Affiliation**

- Who is the Web site associated with?
- Examine the URL and domain name

Evaluating Educational Technology

Evaluating Web Resources

- **Purpose and Objectivity**

- Is the content provided as a service?
- Is the content unbiased?
 - Typically avoid religious/political affiliated sites.

Evaluating Educational Technology

Evaluating Web Resources

Content and Learning Process

- Is the content valid and appropriate?
- Does the information relate to your needs?
- What topics are covered?
- For what level is the information written?
- Do the links within the site add value?

Evaluating Educational Technology

Evaluating Web Resources

Audience and currency

- Is the content suitable for your students?
- Is the content up to date and timely?

Evaluating Educational Technology

Evaluating Web Resources

Design

- Web effectiveness
- Web Evaluation Rubric
- Student Web Site Evaluation Form

-sample forms on next slide

Evaluating Educational Technology

The image shows two sample evaluation forms. The first is titled 'Student Web Site Evaluation Rubric' and includes a section for 'Student team members'. The second is titled 'Web Site Evaluation Rubric' and includes a table with columns for 'Level 1', 'Level 2', 'Level 3', and 'Level 4'. Both forms have a 'Total' column at the end.

Evaluating the Effectiveness of Technology Integration

Assessment Tools for Evaluating the Effectiveness of Technology Integration

- Measure student performance
- Reliable assessment
- Traditional assessment
 - Testing

Evaluating the Effectiveness of Technology Integration

Assessment Tools for Evaluating the Effectiveness of Technology Integration

Alternative assessment

- Authentic assessment (performance based assessment)
- Project-based assessment
- Portfolio assessment
- Checklist
- Rating scale
- Rubric

Evaluating the Effectiveness of Technology Integration

Tools for Evaluating the Effectiveness of Technology Integration

- Teacher observation

- Observe motivation
- Observe how long students work on an objective

Evaluating the Effectiveness of Technology Integration

Evaluating Technology-Based Student Projects

- **Integrated learning systems (ILS)**

- Automatically track student progress

- **Assessment rubric**

[illegible]

Evaluating the Effectiveness of Technology Integration

Evaluating Technology-Based Student Projects

- **Evaluating content**

- Based on your standards and benchmarks
- Review punctuation, grammar, spelling, coverage of material, presentation of the material in a logical order, and specific information about the author

Evaluating the Effectiveness of Technology Integration

Evaluating Technology-Based Student Projects

- **Evaluating planning**

- How do you want your students to plan?
- What tools will the students use?
- Software tools (Inspiration)
- Visual learning techniques

Evaluating the Effectiveness of Technology Integration

Evaluating Technology-Based Student Projects

- **Evaluating planning**

- Flowcharts
- Concept map or story web
- Storyboard

Evaluating the Effectiveness of Technology Integration

Evaluating Technology-Based Student Projects

- **Evaluating creativity**

- Evaluate originality, imaginative and innovative approach, and artistic abilities
- Color, clip art, and artwork should strengthen content

Evaluating the Effectiveness of Technology Integration

Putting it All Together - Evaluating Technology Integration

■ Ms. Vicki Osborne's classroom

- One computer and 26 students
- Block schedule

Chapter 7: Evaluating Educational Technology and Integration Strategies

31

Evaluating the Effectiveness of Technology Integration

Putting it All Together – Evaluating Technology Integration

■ Ms. Vicki Osborne's goals for the lesson

- Students work in groups
- Use reference materials and Web resources
- Identify three major campaign issues
- Provide personal facts about the candidate
- Create a group digital media presentation
- Use correct grammar, spelling, and punctuation

Chapter 7: Evaluating Educational Technology and Integration Strategies

32

Evaluating the Effectiveness of Technology Integration

Putting it All Together - Evaluating Technology Integration

■ Ms. Vicki Osborne's lesson

- Brainstorm to develop a concept map

Chapter 7: Evaluating Educational Technology and Integration Strategies

33

Evaluating the Effectiveness of Technology Integration

Putting it All Together - Evaluating Technology Integration

■ Ms. Vicki Osborne's lesson

- Evaluation rubric
- Flowchart or storyboard
- Work in groups in 40-minute blocks
- Each group presents their project in the media center

Chapter 7: Evaluating Educational Technology and Integration Strategies

34

Integration Strategies

- Teachers must become facilitators of learning
- Use technology to enhance learning environment
- Put technology at point of instruction
- Many mixtures of technology

Chapter 7: Evaluating Educational Technology and Integration Strategies

35

Integration Strategies

■ One-Computer Classroom

- Use the computer for classroom presentations and demonstrations
- Introduce new concepts
- Students use to present assignments, projects, and research activities to the entire class
- Maintain class records, create presentations and projects, do research, and communicate with other teachers

Chapter 7: Evaluating Educational Technology and Integration Strategies

36

Integration Strategies

One-Computer Classroom

- Internet access
- Educational application software
- Enhance lectures and presentations
- Use the computer as a teaching assistant
- Foster group and cooperative learning
- Write an ongoing story
- Create a class blog
- Start a class newsletter
- Maintain a student database
- Teacher productivity tool
- Optimize computer lab time
- New emerging technologies

Integration Strategies

Multicomputer Classroom

- Multiple learning centers
- Integrate other technologies
- Miss Julie Davis' classroom
 - Digital camera
 - Web research centers
 - Develop presentations
 - Microsoft Publisher

Integration Strategies

Computer Labs

- All students have hands-on experience
- Often used to teach technology skills or subject-specific skills
- Integrate computer-related skills into subject-directed curriculum areas
- Example: Web scavenger hunt

Curriculum Integration Activities

Curriculum Pages

- Strategy for implementing the Internet into the classroom
- Teacher created document that contains hyperlinks to teacher-selected-and-evaluated sites that are content and age appropriate

Curriculum Integration Activities

Creating Lesson and Project Plans

- Must integrate technology into lesson plans and activities
- Educator's Reference Desk
- Lesson plans and activities can be found on the Web

Curriculum Integration Activities

Creating Lesson Plans

Language arts integration

- Reading, writing, listening, viewing, speaking, and literature
 - *Extra! Extra! Know All About It.*

Social studies integration

- History, geography, civics, and economics
 - *What Wonderful Webs We Weave*

Curriculum Integration Activities

Creating Lesson Plans

Mathematics integration

- Basic number concepts, measurements, geometry, algebra, calculus, and data analysis
 - The Business of Professional Sports*

Science integration

- Physical sciences, earth and space sciences, and life sciences
 - Let's Think as a Scientist*

Curriculum Integration Activities

Creating Lesson Plans

Physical education and health integration

- Basic health and physical education literacy
 - Eating Healthy!*

Arts integration

- Visual and performing arts including drawing, painting, dance, music, and theater
 - The Theory of Color*

Curriculum Integration Activities

Creating Lesson Plans

Exceptional education integration

- All curriculum areas with adaptations made for students with special characteristics or special needs
 - Rain Forests Are in Trouble*

Interdisciplinary Integration

- Includes two or more academic disciplines or curriculum areas to form a cross-discipline or subject-integrated lesson
 - Natural Disasters Occur Everywhere*

Finding Funds to Support Classroom Technology Integration

- Many school districts do **not** have sufficient funding for technology
- If school cannot provide funds, turn to the public, industry, and the government

Finding Funds to Support Classroom Technology Integration

Fund-raising Drives and Contests

- Partner with local businesses
- Small amounts of money can go a long way
- Enter contests to win equipment
- Involve parents and community
 - Showcase students' use of technology
- Volunteers** -to donate computer repair services

Finding Funds to Support Classroom Technology Integration

Grants

- Funds provided by a funding source that transfers money, equipment, or services to the grantee
- Grantee** is the teacher, school, or organization
- Sources:**
 - Department of Education
 - Federal Sources
 - Foundations
 - Corporations

Finding Funds to Support Classroom Technology Integration

Grants

- Request for proposal (RFP)
- Grant proposal
- Look for opportunities on the Web

Chapter Summary (slide 1 of 2)

- **Identify sources** of information for **evaluating** educational technology and digital media
- **Outline** the considerations and tools used to evaluate software applications
- **Describe and explain** the key criteria used to evaluate Web resources
- **Describe the tools** for evaluating the effectiveness of technology
- **Compare and analyze** the methods used to evaluate student projects

Chapter Summary (slide 2 of 2)

- **Identify** different technology integration strategies by classroom layout and design
- **Define and describe** the value of a curriculum page
- **Describe** ways to integrate technology into specific curriculum subject areas
- **Describe** authentic assessment tools for student projects
- **Identify and compare** possible sources of funding for classroom technology
